## EdCube Portfolio Integration

Mediasphere is pleased to announce the strategic partnership with EdCube Pty Ltd. As part of the partnership, EdCube will be integrating its dynamic, reflective e-Portfolio software as part of the Powerhouse Campus software.

### About EdCube e-Portfolios

EdCube Connect is a fully featured e-Portfolio software application that builds individual student e-Portfolios.

The student e-Portfolios can be created as linear e-Books or as open ended e-Portfolios using EdCube mind-mapping tools.

The innovative features of the EdCube Connect Student e-Portfolios include the ability to:

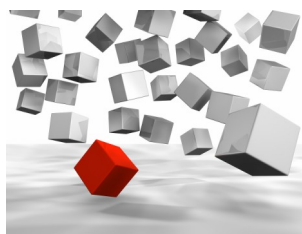

Manage all e-Portfolios from customised student dashboards

Create unlimited e-Portfolios

within the class structure

Use the mind-mapping tools to build the e-Folio structure

Edit the e-Portfolio with extensive editing tool sets

[www.edcube.com](http://www.edcube.com)

Add video, audio, animations, images and most file types

Link all documents

Share ePortfolios with teachers, peers and parents

Collaborate in forums, blogs, messages and e-Portfolio email

## FREE IN-SCHOOL TRIALS

Mediasphere is pleased to offer Australian and New Zealand Schools the ability to install Powerhouse Campus in their school network for FREE.

The installation, usually \$1500, will be offered to the first 20 schools to register with our School Coordinator. Contact:

Margaret McKenzie on 1300 787 611 or email Marg on: [mmckenzie@mediasphere.com.au](mailto:mmckenzie@mediasphere.com.au)

**The free offer for in-school trial expires on Friday 11th November.**

If you are interested in the Powerhouse Campus product—the trial is the perfect way to review the performance of the software on your school network

## Dynamic Mark Book Development

Mediasphere is working in partnership with a range of independent and Catholic schools to develop a dynamic mark book that will feature in the January 2012 version of Powerhouse Campus.

The Mark Book is designed with inbuilt flexibility to allow teach-

ers to create their own mark books that publish automatically in student and parent profiles.

Grades from the drop-box are automatically added to the mark book and the teacher can manually add marks at any time.

If you are interested in accessing the requirements document for

the mark book, please contact Gordon Hack on 1300 787 611 or email [gordnh@mediasphere.com.au](mailto:gordnh@mediasphere.com.au)

The mark book is a breakthrough for many schools in managing and publishing real time assessment profiles for students

**Powerhouse Campus integrates with Timetabler, Oliver, Synergetic and all other school administration systems**
